

The Old Family Album

By G. A. MARTIN.

WINCHESTER COOLEY, president of the Rio Grande Valley bank and Trust company is shown in the accompanying picture at the age of 18, when a student at Ann Arbor, Mich. It is as much like Winchester, Junior, now in his 17th year, that it might be taken for a likeness of the son today.

Winchester, or "Ted," Cooley, was born in Brookfield, Mo., on August 19, 1875, and his parents took him to Las Vegas, New Mexico, shortly thereafter, when the Santa Fe railroad built into the area, and he and two children in the family—Ted and a sister.

Young Ted was sent away to school at Ann Arbor, and graduated from the high school at the age of 18, the year his picture was taken. He returned to Las Vegas, intent upon being a banker, and got a job with James A. Dick, wholesale grocer—the same James A. Dick now in El Paso—and worked for him for a year, then he went to Albuquerque as a salesman for the Singer Sewing Machine company, where he worked another year. In 1895 on the first day of January he was sent to El Paso by James A. Dick to take a job as collector in the First National bank. C. E. Stewart was then the cashier and J. F. Williams was assistant. Remaining with the bank 11 years, working as a teller, assistant cashier, Winchester Cooley then organized the Rio Grande Valley Bank and Trust company in 1906 and about four years ago he was promoted to president. Now the bank is to be consolidated with the City National and he goes back with his old associates, Stewart and Williams.

Dandruff Surely Destroys The Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will destroy your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to destroy it, then you destroy it entirely. To do this get about four ounces of ordinary liquid arsenic; apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely destroy and entirely destroy every single hair and trace of it.

You will find, too, that all itching and itching of the scalp will stop, and your hair will look and feel a hundred times better. You will find liquid arsenic at any drug store. It is expensive and four ounces is all you will need, so matter how much dandruff you have. This simple remedy never fails.—Adv.

DOCTORS FIND REMEDY FOR COLDS AND FLU

Calotabs, the New Nauseless Calomel Tablets, Cut Short Colds and May Prevent Flu By Keeping Liver Active.

Physicians have learned from experience, during the epidemic influenza, that one of the most important factors in the prevention of flu and pneumonia is the keeping of the liver active so that the digestive organs may be in perfect working order and the system thereby enabled to throw off poisons, check any invasion and resist serious complications. For this purpose they have found that the new, nauseless Calomel tablets called Calotabs, are far more effective even than the old style Calomel, which was formerly the universal favorite as Calotabs do not nauseate, the patient, nor interfere with the appetite and digestion.

At the first sign of a cold or sore throat, doctors recommend Calotabs at bed time with a swallow of water—that's all. No salts, no nausea, nor the slightest interference with your diet, pleasure or work. Next morning you wake up feeling fine, your liver is active, and your appetite is keen for a good breakfast.

For your protection Calotabs are sold only in original sealed packages, price thirty-five cents. All druggists recommend and guarantee Calotabs. Your money back if you are not delighted with them.—Adv.

INDIGESTION CAN'T STAY

Stomach Pain, Sourness, Gases, and Acidity ended with "Pape's Diuapessin"

Out-of-order stomachs feel fine at once! When meals don't fit and you bloat, gas, acids and undigested food. When you feel indigestion, pain, lumps of distress in stomach, heartburn or headache. Here is instant relief.

Just as soon as you eat a tablet or two of Pape's Diuapessin all the dyspepsia, indigestion and stomach distress caused by acids, will end. These pleasant, harmless tablets of Pape's Diuapessin always put you, up, and acid stomachs in a minute at once and they cost as little as drug stores.—Adv.

SORE THROAT

Colds, Coughs, Croup and Catarrh Often Relieved in Two Minutes.

Is your throat sore? Breathe Hyonol. Have you Catarrh? Breathe Hyonol. Have you Croup? Breathe Hyonol. Have you a cold? Breathe Hyonol.

Hyonol is the one treatment for colds, throat and lung troubles. It does not contain cocaine, morphine or other dangerous drug and goes away with stomach distress. Just breathe it through the little pocket inhaler that comes with each outfit.

A complete outfit costs but little as \$1.00 and is guaranteed to relieve catarrh, croup, coughs, colds, sore throat and bronchitis or whooping cough. Hyonol is a life line and extra bottle of Hyonol can be obtained from druggists for a few cents.—Adv.

WINCHESTER COOLEY, AGED 18

In 1900 on the 14th of September, Winchester Cooley married Miss Mary Ann Beattie at Dover, N. J., and to them have been born two children, their boys and six girls. And the father can answer you right off the bat without a moment's hesitation, when you ask him to classify their sex or give their names. Besides other qualities, "Ted" Cooley has a good nature.

During the war, Mr. Cooley was chairman of the county council of defense, was campaign manager of the second Red Cross drive and was field director for Red Cross work at Fort Bliss and surrounding camps.

The saddest addition of young Cooley was to be a banker; he can't remember when this ambition first struck him or exactly why, but he wanted to be one and they do not that he is some banker. "Ted" Cooley has almost red hair and a big heart.

Many an El Paso business man owes his first start to Cooley. The story is told of one well known valley farmer, who had lost \$100 and paid this for an option on a farm. When he went to Cooley, told him his troubles and asked for the loan of enough money to pay off the rest of the debt, buy farming implements and stock. The story is that Cooley looked rather hard at him, then exclaimed: "Well, for nerve, you are the limit, but I like your nerve and I like your red hair; I believe you are honest and I'll let you have the

same beneficial result is secured by taking Dr. Pierce's Pleasant Pellets. People get sick because they go away from Nature, and the only way to get well is to go back to Nature. Something grows out of the ground to cure almost every ill. Dr. Pierce, some fifty years ago, found that a combination of May-apple, leaves of aloe, and root of jalap, rolled into a tiny, sugar-coated pellet—called Doctor Pierce's Pleasant Pellets—was as effective as castor oil and more pleasant to take.

HEALTH TALK

By DR. LEE H. SMITH

The Kidneys and Uric Acid

All the blood in the body goes thru the kidneys within a few minutes. Therefore the kidneys are very important for health, because they filter out of the blood most of the waste (poisonous) substances and the blood then flows on toward the heart thru the kidney vein, and what the kidneys take out of the blood forms urine. So it is very important to have the water examined by a chemist at least once a year to test one's health.

I would suggest that everyone send a sample to Dr. Pierce's Clinic in Buffalo, N. Y., for a thorough chemical and microscopic test. This will be made free of charge and a report sent to you. The kidneys and bladder suffer from the wear and tear and we get chronic inflammations, sometimes indicated by backache, painful voiding of water, dull, heavy feelings. Perhaps the uric acid is stored up in the system in excessive amount, and consequently, when the uric acid salts are deposited in muscles and joints one suffers from lumbago, rheumatic pains, gout, and this is the time to take "Anuric."

Constant Headache—There was no self-addressed stamped envelope enclosed with your letter. Perhaps you forgot it. To make the best situation, mix one ounce of powdered Eucalyptus leaves with three ounces of powdered Castile soap, and for each shampoo, take a heaping tablespoonful of this and mix in a pint of hot water. Lather the mixture over the hair, let it remain on 15 minutes and rinse off through several waters. This cleans the scalp and tends a rich luster to the hair—becoming to both blonds and brunets.

The Poet Boils Over At What The Linotype Man Can Do With Copy

THE poet—which the printers will please spell "p-o-e-t" and not "p-e-t"—has boiled over in the following lines, which perhaps explain themselves as they go along.

JUST WHEN a man

BEGINS to think that

PRINTERS ARE WISE,

THAN MOST other craftsmen

WHO ARE STRIKING

FOR HIGHER WAGES,

AND WHEN he begins

TO FEEL sorry for

THE TYPOS on the

LITERARY DIGEST columns,

THAT MAGAZINE has figured

OUT A WAY to do

WITHOUT THEM altogether,

A PRINTER had to go

AND BAIL up a piece

OF COPY of mine,

WHICH I had intended

money. The man can borrow money at any bank today, but he doesn't have to. Other stories of a similar nature are told of "Ted" Cooley.

He plays with his children for recreation, and has but one ambition—to see his old girl grow to manhood and womanhood and be a success.

Tomorrow a likeness will be shown of Bernard Blumenthal at the age of 18.

A Line O' Cheer Each Day O' The Year By JOHN KENDRICK BANGS.

ACTION. I HOPE the while I live whatever storms are brewing, it'll be TAKE or GIVE. I'll find there's something doing.

I want a life of SNAP. Even though the way be dusty, And not a final lap With hinges that are rusty.

(Copyrighted, 1919, by the McClure Newspaper Syndicate.)

She looks like a college girl until she is forty.

up. She can help her small son with his lessons and play tennis with her hair-grown daughter, and at least manage to look intelligent and interested when her older boy talks baseball. Her sympathetic, she makes an excellent friend.

Essentially, she is serious minded—but solemn however, for she has a sense of humor, and that sense is enough to keep her young. Besides this, she is interested enough in her work to allow her body to grow flabby and fat. She exercises enough so that her walk stays young and elastic; she keeps her complexion because she is visible in her choice of foods, and because she knows strong soup will ruin her skin.

It's easy enough to be like this type of woman; you yourself must know a dozen like her. The formula is simply to keep the mind wide open and take an interest in everything going on around you. And live sanely so you'll keep your young face and figure.

Travellette

By A. H. HARRIS.

CAMP HUMPHREYS, in Virginia, not far from Washington, is one of the many deserted villages which the end of this war has left scattered all over the country.

The camp is located on a great tract of wild Virginia woodland, fronting on the Potomac river with high forested bluffs. It is only a few miles from Mount Vernon, and is still nearer the village of Lorton, which is the center of a section occupied by the estate of a wealthy country dweller.

Just a few months ago, that hitherto waste land was a scene of bustling activity. Shanties were being built, timber cut down, and lines of khaki clad men were drilling in long deserted pastures. Rifles were cracking across a target range. Great brown army trucks were tearing the country roads to pieces, bringing to the war-born city more inhabitants every day, and the supplies with which to keep them alive.

Now this is all over. Camp Humphreys consists of row upon row of deserted, yellow shanties, and just a few occupied ones. A couple of straggled men dunes at its gate. Once in a while a few men practice at the rifle range. But for the most part, it is a spectacle of desolation and wasted energy.

One good thing it has left the neighborhood, and that is a fine military road from Alexandria to its gate, which was completed just about the time the war was over.

One good thing it has left the neighborhood, and that is a fine military road from Alexandria to its gate, which was completed just about the time the war was over.
